Suffolk Learning Disability Partnership

Staying Healthy, Safe and Well Meeting

Joint Learning Disability Strategy 2015-20

Workstream 3: Staying Healthy, Safe & Well

1. Introductions and minutes from the last meeting.
All.

2. Updates.
All.
We will spend some time talking about the things we have been working on since our last meeting.

3. Website suggestions
All.
What would we like on the Staying healthy, safe and well page of the Partnership website?

Made in co-production

4. Transformation Fund - Accessible Resources
Max Clark.
Max would like the workstream to offer comments on the progress of the primary care resources.

5. Any other business
All.
Amanda would like to discuss annual health checks.
Angela and Anya would like to share some information on the LeDeR programme.

Item 1: Introductions and minutes from the last meeting.

Staying healthy, safe and well

Present: Roger Blake, Ian Dunstan, Angela Keighley, Jacquie Knott, Joel Mayo.

Supporter: Anya Wooddissee.

Apologies: Rebecca Crossley, Marielena Giner, Tony Green, Sue Medley, Sarah Richardson and Amanda Stevens.

Joel talked the group through the minutes from the last meeting on October 20th.

Item 2: Updates

Joel and Anya updated on the first meeting of the new Health Expert Network. The first meeting asked people to think about what they knew about screening.

Ian shared the feedback from the leisure operators following the presentation he delivered with Taiwo. This explained the results of the iCAN Gym survey.

Ian explained that leisure operators will be updating their websites to include more information about traveling to gyms and the 'carers go free' scheme they all offer.

Roger and Angela updated the group about the Ipswich Hospital User Group. At the last meeting, a director of nursing talked to the group and answered questions.

Roger explained that since this meeting, the hospital are introducing 'reasonable adjustment stickers', these will show staff that a person needs a reasonable adjustment.

Roger shared that the hospital has been making sure that people with a learning disability are being recorded. 2370 extra names have been added to this list.

Roger would like to work with people with learning disabilities to support the training of new staff. This could be done in person or through making some experience videos.

Item 3: Website suggestions.

We decided to talk about this at our May meeting.

Made in co-production

Item 4: Transformation Fund – Accessible Resources.

Max had sent the workstream 7 draft documents to comment on. These included invitations to appointments and information about health services across Suffolk.

Angela, Ian and Joel worked through each of the documents to make comments and suggestions.

Expert Networks
Ace Anglia
Health

We thought that some of the feedback from the Expert Networks could help with the information Max will be making about screening.

Item 5: Any Other Business.

As Amanda was unable to attend, we decided we could talk about annual health checks at our May meeting.

Angela and Anya went to a workshop about the LeDeR Programme, hosted by NHS England. More information can be found at: http://www.bristol.ac.uk/sps/leder/about/
